

Nordic solar container energy storage system distributor

Overview

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
