

Ottawa Industrial Energy Storage

Overview

What is Trail Road battery energy storage systems?

Trail Road Battery Energy Storage Systems is a 150 MW battery storage project with 600 MWh of energy storage, located in the City of Ottawa, Ontario. Evolugen has partnered with AOPFN to develop, own and operate both the Fitzroy and Trail Road BESS projects.

What is battery energy storage systems (Bess)?

Battery Energy Storage Systems (BESS) – Frequently Asked Questions (FAQ's)
What are Battery Energy Storage Systems (BESS)?

Battery Energy Storage Systems (BESS) are energy retention systems that store and then discharge electricity back into the electricity grid when supply is low or when energy is most expensive.

What is the largest energy storage procurement in Canada?

This represented the largest energy storage procurement ever in Canada. A report was tabled at the November 30, 2023 Agricultural and Rural Affairs Committee on four proposed BESS projects within Ottawa, one of which project received Council support, known as a Municipal Support Resolution (MSR).

What is a battery energy storage system?

Battery Energy Storage Systems support the integration of flexible generation resources and provide intelligent resilience to the regional electricity grid. Ottawa BESS 2 will further support the electrification of transport and the environmental sustainability goals laid out by the plans from the City of Ottawa.

Ottawa Industrial Energy Storage

Ottawa Industrial Energy Storage

Where are battery energy storage systems being built? BESSes are already approved or under construction in Jarvis, Napanee and Spencerville. In Ottawa, a 150-megawatt battery-storage ...
