

Outdoor Power Simple Camping

Overview

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

Do you need a portable power setup for a camping trip?

Whether you're heading out for a weekend in the woods or building a longer off-grid setup, having the right portable power setup can make or break your camping trip.

Which solar power station is best for camping?

BLUETTI AC180 Solar Portable Power Station The BLUETTI AC180 delivers reliable power for camping trips, outdoor adventures, and backup during power outages. We found its practical design and efficient battery perfect for campers who need serious power in a compact package.

How much power do you need for camping?

Weekend adventures typically need 200-300Wh for smartphone charging and LED lighting. Glamping and campground camping with amenities require 500-700Wh units to power fans, portable coolers, and CPAP machines. RV camping and extended backcountry trips benefit from 1000Wh or higher capacity that supports multiple days off-grid.
