

Port of Spain Mobile House Container Wholesale

Overview

Where is the 40 foot container house in Spain?

The 40-foot cargo container house in Spain, which is situated in the Galician countryside, was designed by architects Severo Fernández and Basilio Rodríguez of Estudio Base. It features a wooden exterior, a porch, and a removable awning, making it ideal for outdoor enjoyment as a summer house.

How much does a container house cost?

Increasingly in demand and better quality, some container house options are stylish, such as Cubic House, with prices starting at under €50,000. Cubic House is a family-run company based in Catalonia, specialising in manufacturing single-family homes from High Cube shipping containers.

Can a container house be expanded?

Moreover, Cubic House container homes are designed for expansion. You only need to add modules to increase the surface area or the number of rooms. What materials are used in a container house?

Cubic House uses High Cube containers, which form the steel structure (replacing the traditional forged concrete foundations).
