

Portable UPS Power Supply in San Diego

Overview

How does ups work in San Diego?

UPS Customer Centers in SAN DIEGO, CA are ideal to easily create new shipments with the use of our self-service kiosks. Customers can also drop off pre-packaged pre-labeled shipments. Limited packaging supplies are also available to finish preparing a shipment. Customers in a time crunch can also print mobile shipping labels.

What services does ups offer in San Diego?

The UPS Customer Center in SAN DIEGO offers full-service packaging services to help make each customer's visit simple and convenient. Our self-service location is ideal for dropping off pre-packaged, pre-labeled shipments.

What is an uninterrupt power supply (UPS)?

An uninterrupt, or uninterruptible power supply (UPS) works as a battery, surge protector and power inverter for household and office electronics. The battery inverter allows stored energy to be used for power, while the surge protector prevents any damage from a sudden surge in the power level.

How many volts does a UPS backup use?

Most UPS backup models will indicate their particular volt-amperes (VA) output. The higher the VA rating the more stored power and running capacity available. For single devices and smaller operations, 200 to 450 volt-amperes will generally suffice. Need more power?
