

Portonovo sodium sulfur solar container battery manufacturer

Overview

What is a sodium sulfur battery?

Sodium sulfur batteries produced by NGK Insulators Ltd. offer an established, large-scale energy storage technology with the possibility for installation virtually anywhere. With a wide array of advanced features, from large capacity to compactness, NAS battery is a welcome addition into the long-duration energy storage industry.

Who makes sodium ion batteries?

Sodium-ion battery manufacturers like Faradion Limited, AMTE Power PLC, NGK Insulators Ltd, HiNa Battery Technology Co. Ltd., and TIAMAT SAS continue to expand the global sodium-ion battery market through innovation and new technologies.

Are sodium ion batteries sustainable?

A study has shown that a sodium-ion battery scores well over a lithium-ion battery and a solid-state battery in terms of price, safety, and sustainability. Except for energy density and charging time, sodium-ion batteries have stood out as the most efficient and sustainable batteries for electric mobility.

What is a NaS battery?

Our customers can profit from this and our full service offers to tackle the further build-up of renewable energies and many other applications. The NAS battery is a megawatt-level energy storage system that utilises sodium and sulphur and features NGK's proprietary advanced ceramic technologies.
