What size solar panels do you need for a 100kW Solar System?

Generally, commercial systems are made with 72/144-cell, 96-cell panels or larger. The 100kw solar system size thus will depend on the panels that you'll choose. Consider purchasing bifacial panels if space is an issue: a bifacial module has an active backside that generates energy by using sunlight that was reflected from the ground.

Can a 100kW Solar System be paired with batteries?

However, you can also pair your 100kw solar system with batteries to build a hybrid or an off-grid system: while these are more expensive options, this will give your system more sustainability. Having batteries makes your installation more independent: for example, you can avoid peak utility rates.
