

Price of a 40-foot solar-powered container for Australian mines

Overview

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Are solar containers safe?

Yes — all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?

Price of a 40-foot solar-powered container for Australian mines

Solar Powered Shipping Containers for Sale in Australia
