

# Price of solar B-class components

## Overview

---

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

How much does EnergyBin cost?

However, prices on EnergyBin ranged from \$0.140 (Vikram Solar) to \$0.360 (QCells). These are prime examples of the fluctuations within of the secondary market with respect to pricing and availability. Such price fluctuations put pressure on wholesale sellers to do their research and practice transparency by listing prices online.

Which solar module manufacturers have announced price hikes?

Following this, LONGi also declared that the prices of its B-type modules would rise by 1-2 cents, effective October 29. Additionally, reliable sources indicate that Tongwei Solar, Jinko Solar, and JA Solar will also increase their prices by CNY 1-3 cents. This means that all top five solar module manufacturers have announced price hikes.
