

Pure sine wave inverter chassis

Overview

What is the high performance pure sine wave power inverter?

The High Performance Pure Sine Wave Power Inverter is your affordable necessity without sacrificing performance. With Magnetic ring installed to reduce interference. You can run high powered devices such as computers and TVs from your car, four wheel drive (4WD), truck, caravan, and boat battery.

How do I choose a pure sine wave inverter?

When choosing pure sine wave inverters, you need to make sure you are selecting an inverter that covers your appliance's Continuous Power Consumption and be sure to account its Peak Power Consumption. You'll find pure sine wave inverters range from 300W right up to 5000W depending on the load you need to power.

What is a pure sine power inverter?

Pure sine inverters are great for medical equipment, digital music amplifiers, higher end televisions, and essential for microwaves and laser printers. These 12V pure sine power inverters are listed numerically from smallest to largest and each 12V PSW inverter differs in size, features and specifications.
