

Recommended UPS for Barbados electricity

Overview

Do I need a power adapter in Barbados?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Barbados, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Barbados is 115 V, and the standard frequency is 50 Hz.

Do you need a voltage converter in Barbados?

If you're packing for an unforgettable vacation here, you'll need to remember all essentials, especially the correct travel adapter for your electronic devices due to the differences in power plugs and sockets. Barbados uses 115V and 50Hz. Knowing this helps in understanding if your devices need a voltage converter.

What are the different types of power plugs & outlets in Barbados?

In Barbados, there are two types of power plugs and outlets: Type A and Type B. Both types are used in airports, hotels, restaurants, etc., but they differ in terms of shape. Type A: Type A plugs have two flat prongs on either side of the plug.

What is the standard voltage in Barbados?

The standard voltage in Barbados is 115 V, and the standard frequency is 50 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency?

- Select it from our list.
