

# Refrigerated container generator brand

## Overview

---

What type of generator is used for refrigerated shipping containers?

- Diesel generators: Diesel generators are the most common type of generator used for refrigerated shipping containers. They are reliable, durable, and can provide a lot of power. However, diesel generators can be noisy and expensive to operate.

Can a diesel generator be connected to a refrigerated container?

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source. Diesel Generator designed to mount on the front of a refrigerated container. Diesel Generator set designed to clip on to the front frame of a refrigerated container.

Who makes gensets for reefer containers?

Corporated with Shanghai CIMC Generating Set Co., Ltd, our team with professionals with nearly 30 years experience of in designing and manufacturing gensets for reefer containers guarantee tight and efficient quality control as well as manufacturing process.

How to choose a generator for a refrigerated shipping container?

Diesel, gasoline, and natural gas are good options. Generators can be really loud, so picking one with a low noise level is key. This is even more important if the generator is going to be used in your neighborhood. If you need to move your refrigerated shipping container around, it's best to go for a generator that comes with wheels.
