

# Riga solar Tiles

## Overview

---

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

Which countries install solar panels in Latvia?

Estonia, Finland, Latvia, Lit. List of Latvian solar panel installers - showing companies in Latvia that undertake solar panel installation, including rooftop and standalone solar systems.

Can a solar roof be integrated with a planum tile?

Our Solar tile combines perfectly with our Planum ceramic tile, so the system will be fully integrated with the roof. Planum Solar tiles are made from premium mono crystalline cells and the glass technology that surrounds the is very sturdy and durable in extreme weather conditions.
