

Overview

What are solar roof tiles?

Solar roof tiles are also referred to as solar shingles or solar slates and are used as a replacement for traditional solar panels. These tiles are made with small solar panels consisting of photovoltaic cells that absorb sunlight exactly the same way as conventional panels do.

Can rooftop solar be used in rural areas?

The substantial potential of rooftop solar can meet the current annual electricity demands of rural households, and can also address the wider electricity needs of sectors such as agriculture and forestry, collectively amounting to approximately 550 billion kWh.

Why should you choose Solarstone® solar tiled roofs?

Solarstone® solar tiled roofs are a cost-effective and modern choice. Solarstone® offers prices that are competitive with conventional on-roof solar installations. Installing a Solarstone® Solar Tiled Roof is easy and efficient, with a simple gabled 60 m² roof being completed in just 1 day.

Do solar roof tiles have a warranty?

Glass and steel roofing tiles make up solar roof tiles. While the latter is flexible and can be installed on rooftops of any size or shape, the former is strong and offers exposure to the sun, which produces energy. In addition, while solar panels have a 20-year warranty, solar roof tiles have a 25-year warranty.
