

# **Saudi Arabia Energy Storage Container Low-Pressure Type**

## Overview

---

Is Saudi Arabia a leader in battery energy storage?

Riyadh, February 14, 2025, SPA -- The Kingdom of Saudi Arabia has achieved a leading position among the top ten global markets in the field of battery energy storage, coinciding with the launch of the Bisha Project, which has a capacity of 2000 MWh and is one of the largest energy storage projects in the Middle East and Africa.

Which country has connected a 500 mw/2000 MWh battery energy storage system?

Saudi Arabia has connected a 500 MW/2000 MWh battery energy storage system (BESS) in Bisha, located in the southwestern province of 'Asir. The facility is currently the largest operational single-phase energy storage project in the world.

What is Bisha battery energy storage project?

The recently operational Bisha battery energy storage project features 488 advanced battery containers with a storage capacity of 500 MW for a duration of four hours.

How does the Bisha project help Saudi Arabia?

Engineers adjusted installation methods and commissioning processes to improve the system's reliability and performance in such an environment. The Bisha project supports Saudi Arabia's plan to expand renewable energy under Vision 2030, which aims to generate 50% of the country's energy from renewable sources.
