

Serbia Tourism solar container outdoor power

Overview

How much solar power does Serbia have?

Serbia's total 11 MW of installed solar capacity (5.34 MW from land installations and 3,476 MW from roof installations in a total of 107 projects) is negligible. According to the International Renewable Energy Agency (IRENA) Serbia has an estimated potential of 3.6 GW. Currently, Serbia's installed and utilized wind-power capacity is below 500 MW.

How many jobs will a solar project create in Serbia?

Djedovic Handanovic said that the project would create between 300 and 500 jobs. According to the Association of Renewable Energy Sources of Serbia, the country has installed around 60 MW of solar. However, that figure is not exact, as there is no official registry for solar installed for self-consumption at this stage.

What is Serbia doing with China Fengling renewables & Zijin copper?

The Serbian Ministry of Mining and Energy has signed a memorandum of understanding (MoU) with Chinese companies Shanghai Fengling Renewables and Serbia Zijin Copper. It envisages the construction of 1.5 GW wind and 500 MW of solar projects alongside a green hydrogen production facility with 30,000 tons of annual output. DeLasol solar plant.

What is Serbia's energy investment plan?

The Ministry of Mining and Energy has announced a €15 billion investment plan for the electricity sector in next several years, expecting to reach more than 3 GW of renewable energy production plants. The main players and investors in the Serbian Energy Sector are:
