

Sma solar inverter profit

Overview

Who owns SMA Solar Technology AG?

As the parent company of the SMA Group, SMA Solar Technology AG, headquartered in Niestetal near Kassel, Germany, takes over all of the functions required for its operating business. The parent company holds, either directly or indirectly, 100% of the shares of all the operating companies that belong to the SMA Group.

How much solar power does SMA Solar technology have in 2024?

For the Americas region, the Managing Board of SMA Solar Technology AG anticipates a constant level of newly installed PV power of approximately 70 GW to 75 GW (2024: 70 GW to 75 GW). Roughly between 47 GW and 52 GW of this amount is attributable to the North American markets.

How are business transactions recorded at SMA Solar Technology AG?

Business transactions of SMA Solar Technology AG and all the larger subsidiaries are primarily recorded using Enterprise Resource Planning (ERP) systems from SAP SE. The authorizations granted are reviewed and amended regularly, if necessary.

How do SMA customers benefit from self-produced solar energy?

SMA customers thus benefit twice by reducing their electricity bill and making optimum use of their self-produced solar energy. Customers can easily subscribe to the tariff via the SMA Energy App and track their savings and price developments transparently and conveniently at any time.
