

Small solar inverter for sale in Auckland

Overview

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Why should you choose trade depot solar inverters?

Maximise your solar energy with high-performance inverters from Trade Depot. Convert and manage power efficiently for a dependable energy solution - NZ Wide Delivery.

What are the different types of solar inverters?

Three-phase: developed for higher yield and more suitable for commercial environments. Hybrid inverters: have the option to draw power from the grid or your energy storage system. Hybrid inverters are great during power blackouts. There are several finance options to help with your move to solar, including 0-1% bank loans. [Learn more.](#)

Who is Sungrow solar?

Founded in 1997 by University Professor Renxian Cao, Sungrow is a global leader in research and development in solar inverters, with numerous patents and a broad product portfolio offering PV inverter systems as well as energy storage systems for utility-scale, commercial, and residential applications.
