

# Solar Energy in Helsinki

## Overview

---

How much solar power does Finland produce a year?

Seasonal solar PV output for Latitude: 60.1719, Longitude: 24.9347 (Helsinki, Finland), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 5.72kWh/day in Summer.

Where is solar energy produced in Finland?

In Helsinki, Uusimaa, Finland (latitude: 60.1719, longitude: 24.9347), solar energy production varies significantly across different seasons. During the summer months, an average of 5.72 kWh per day per kW of installed solar can be generated, making it a suitable time for harnessing solar power.

How much solar power will Finland have by 2030?

In addition, Finland's transmission system operator Fingrid has received wind and solar power connection enquiries amounting to a total capacity of over 100 megawatts. Fingrid assesses that by 2030, the overall solar power plant capacity in Finland may climb to seven gigawatts.

How does renewables Finland track the development of solar power in Finland?

Renewables Finland currently maintains three up-to-date lists and statistics that track the development of solar power in Finland. The first is an annual statistic covering operational solar power projects, while the second lists projects under construction and third lists .

## Solar Energy in Helsinki

---

### Solar power projects in Finland

Solar power projects in Finland Renewables Finland currently maintains three up-to-date lists and statistics that track the development of solar power in Finland. The first is an annual statistic ...

### Photovoltaic potential in the Helsinki metropolitan area

Photovoltaic potential in the Helsinki metropolitan area The data contains the photovoltaic production potential calculated per building, provided that the entire area suitable for solar ...

### Helsinki's Photovoltaic Energy Storage Revolution: Powering ...

Why Helsinki Needs Photovoltaic Energy Storage Now You know, Helsinki's facing a classic Nordic paradox. The city aims for carbon neutrality by 2035, but it's still dependent on imported ...

### Solar PV Analysis of Helsinki, Finland

Aug 6, 2022 · Seasonal solar PV output for Latitude: 60.1719, Longitude: 24.9347 (Helsinki, Finland), based on our analysis of 8760 hourly ...

### Solar PV Analysis of Helsinki, Finland

Aug 6, 2022 · Seasonal solar PV output for Latitude: 60.1719, Longitude: 24.9347 (Helsinki, Finland), based on our analysis of 8760 hourly intervals of solar and meteorological data (one ...

### Solar potential in Helsinki

Mar 14, 2021 · The city of Helsinki as well has its own climate strategy, aiming to become carbon-neutral by 2035. Alongside other sources of renewable energy, solar power has become a ...

### Solar Power in Finland: Growth, Subsidies

Jul 18, 2025 · Explore the rapid growth of solar power in Finland, backed by EUR16.6M in subsidies. See how Finland's solar energy strategy is paving ...

### Finland's gold rush: navigating the solar ...

Dec 7, 2023 · Finland, often associated with its stunning natural landscapes, has become an unlikely contender in the global renewable energy market, ...

### Solar energy and solar electricity in Finland

Apr 18, 2023 · Solar energy and solar electricity in Finland Contrary to popular belief, Finland's solar energy potential doesn't fall short of that of Central Europe. In the summer, the long days ...

### Global horizontal irradiance forecast for Finland based on

Mar 1, 2020 · Global horizontal irradiance (GHI) estimates and forecasts are necessary for the efficient use of a naturally fluctuating energy source like solar energy. However, few ...

Solar power production capacity rose to 1,000 megawatts

Jun 17, 2024 · Estimated solar power capacity unconnected to the grid is based on the data concerning heating energy in single-family houses by Natural Resources Institute Finland and ...

---

National Survey Report of PV Power Applications in ...

Sep 30, 2020 · The IEA Photovoltaic Power Systems Programme (IEA PVPS) is one of the TCP's within the IEA and was established in 1993. The mission of the programme is to "enhance the ...
