

# **Solar Light 9V solar Panel**

## Overview

---

What is a 9 volt solar panel?

WSL Solar's 9V solar panels (or 9 volt solar panels) are built with the latest most efficient crystalline silicon solar cells. These custom shaped solar panels are great for charging your 6V DC batteries and ideal for use in off grid appli.

What are custom shaped solar panels?

These custom shaped solar panels are great for charging your 6V DC batteries and ideal for use in off grid applications such as marine buoys, traffic signs, IoT devices, GPS trackings, educational kits, small electronic devices, LED lighting etc. Click [here](#) to watch the video of this type of custom solar panels.

What is a solar power panel?

Charge smarter with our Solar Power Panel that delivers up to 93% light transmittance, ensuring maximum solar energy absorption even in low sunlight conditions. Compact and lightweight, this panel is the perfect solution for sustainable power on the go.

What is a solar panel kit?

The solar panel kit uses the power of the sun to provide endless green, environmentally friendly power to our devices without having to worry about running out of power. The solar panel is ideal for RV, camping, climbing, hiking, boats, or in an emergency. Enjoy your Outdoor time with our portable foldable solar panel.
