

Solar Street Lights One Tile

Overview

What is a solar street light?

All in one solar street lights integrate a monocrystalline solar panel, Phillips 5050 LED chips, and a long life LiFePo4 battery into a compact, reliable, and extremely bright package. This solar all in one street light, and solar parking lot light is an alternative to traditional solar lighting system design.

What is an all-in-one solar street light?

An all-in-one solar street light is a standalone outdoor lighting system where all major components are integrated into one compact unit, usually mounted at the top of a pole: High-efficiency LED module – provides directional, low-glare lighting for roads, walkways or parking lots. Monocrystalline solar panel – charges the battery during the day.
