

Solar container energy storage system factory in London

Overview

What is solar & storage Live London?

Solar & Storage Live London showcases global solar and energy storage solutions alongside complementary products and services for residential, commercial, industrial and large-scale utility projects.

Why are UK businesses turning to solar power paired with battery storage?

As energy prices fluctuate and sustainability becomes a top priority, more and more UK businesses are turning to solar power paired with battery storage to cut costs, reduce carbon emissions, and gain greater energy independence.

When is solar & storage Live London 2026?

The April edition, Solar & Storage Live London, launched in 2024 and was an overwhelming success. Returning for its third year in 2026, the show is set to grow even bigger, featuring over 200 global exhibitors and 200 speakers. More than 10,000 industry professionals are expected to attend over the two days.

What is commercial solar battery storage?

Commercial solar battery storage systems let you store excess solar energy generated during the day and use it later—whether that's during evening peaks, grid outages, or periods of high electricity prices. This approach, known as solar time-shifting, can dramatically reduce your energy bills and increase your site's resilience.
