

# Solar glass off-season in the first quarter

## Overview

---

What is the global solar glass market size?

Solar Glass Market size is expected to reach nearly US\$ 146.11 Bn. by 2029 with the CAGR of 29.3% during the forecast period. Increasing demand for clean energy, due to growing awareness regarding global warming is in turn, increasing the demand for photovoltaic glass, thereby boosting growth of the market.

Where is solar glass used?

Demand for glass is rapidly increasing in the architectural sector. Solar glasses are used in both residential and non-residential applications. Europe and Asia Pacific are key regional markets for solar glass. Europe is leading the solar glass market while China is foreseen to exhibit the highest growth rate during the forecast period.

Which countries are leading the solar glass market?

Europe and Asia Pacific are key regional markets for solar glass. Europe is leading the solar glass market while China is foreseen to exhibit the highest growth rate during the forecast period. Favorable regulations in European countries including Italy, Spain and Belgium are expected to create demand for solar glass market.

What is Solar Photovoltaic Glass?

Solar photovoltaic glass is being integrated into buildings in the form of windows, roof panels, and building panels. Solar glass helps reduce the carbon footprint, which helps maintain environmentally-friendly standards of clean energy.
