

Solar panel MC4 manufacturer

Overview

Who made MC4 and MC3 solar panel connectors?

Multi-Contact was one of the most well-regarded and well-established companies manufacturing solar panel connectors. They made both the MC4 and MC3 connectors, with the model numbers also referring to the specific diameter of the connector wire.

Why are MC4 solar panels widely used?

MC4 connectors are widely used because they allow for easy construction of solar panel strings by simply clipping them together by hand. They also have a safety lock to prevent accidental separation. Since 2011, MC4 has been the primary solar panel connector, equipping nearly all solar panels in production.

What is a solar connector?

solar connectors are crafted with automated precision, offering optimal efficiency and long-term performance for small to large-scale PV systems, keeping your PV installation up and running efficiently and safely. enable PV profitability for sustainable success.
