

Solar power station in China in Jordan

Overview

How many solar PV projects are there in Jordan?

Jordan Electric Power Company (JEPCO): 591.44 MW (32,257 projects). Irbid Distribution Company (IDECO): 309.32 MW (28,588 projects). Electricity Distribution Company (EDCO): 181.10 MW (13,300 projects). The global decline in solar PV system prices fueled strong demand for installations during the first half of 2024.

Is there a cap on solar PV projects in Jordan?

In September 2024, Jordan's Council of Ministers lifted the cap on solar PV project sizes, enabling large-scale installations. A notable example is a 50 MW solar power plant financed by Cairo Amman Bank and currently under construction.

Where is the first solar-powered charging station in Jordan?

Jordan inaugurated its first solar-powered charging station for electric cars in February 2012. Located at El Hassan Science City (EHSC), the station is considered the first step towards promoting solar-powered vehicles and building more solar-charging facilities on the streets of Jordan.

How much does solar cost in Jordan?

The commercial sector faces higher grid fees of 13 JD (\$18.3 USD) per kWac/month, reducing the economic viability of installations. In September 2024, Jordan's Council of Ministers lifted the cap on solar PV project sizes, enabling large-scale installations.
