Who is treetops solar?

Treetops has established itself as a leading Solar Company in Cape Town since 2010. We are thriving for excellence every day and are looking forward to what the next years have in store for us! Treetops Renewable Energy Systems is run by a German-South African family team: Stefan Ortmann, Helen Ortmann and Martin Pollack.

How do backup power systems work?

Today efficient backup power systems consists of two major components, an inverter and a single lithium solar battery or set of lithium solar batteries. Batteries usually have a potential difference of either 12, 24 or 48 volts DC.

How do I buy a solar power system?

Gradually acquire ownership of a solar power system through lease payments. Purchase either a full solar system or backup power system for your home. A Power Purchase Agreement (PPA) is a long-term contract between an electricity consumer and a renewable energy provider.
