

Solar street light with two solar panels

Overview

What is a solar powered street light?

LED Lighting Solutions' 15W Solar Powered LED Street Light is a part of the Pro street lighting series. This product comes with an integrated solar panel, bright LED lights, integrated solar rechargeable battery and motion activation sensor, making this an eco-friendly and efficient product.

What is an All in One Solar Street Light?

An All in One Solar street light is a compact and modern lighting solution that integrates a solar panel, LED light, Lithium-ion or Lithium Ferro Phosphate (LiFePO4) battery, and a PIR motion sensor. The solar panel voltage detects day/night conditions and automatically turns the light on at sunset and off at sunrise.

Where are the solar streetlights made?

We take pride in manufacturing our solar streetlights in India, making them cost-effective and easily accessible. Our All in One Solar street light is a compact and modern lighting solution.

What kind of LEDs do your solar street lights use?

Our solar street lights use high-quality LEDs from BRIDGELUX, OSRAM, PHILIPS, or SEOUL. These LEDs have a guaranteed performance of 50,000 hours and come with LM80 reports.

Solar street light with two solar panels
