

Sophia lithium energy storage power supply customized manufacturer

Overview

Who is lithium storage?

LITHIUM STORAGE is a lithium technology provider. LITHIUM STORAGE focuses on to deliver lithium ion battery, lithium ion battery module and lithium based battery system with BMS and control units for both electric mobility and energy storage system application, including standard products and customized products.

What is the upstream of the electrochemical energy storage industry chain?

The upstream of the electrochemical energy storage industry chain mainly consists of various raw material suppliers, including positive and negative pole materials, electrolytes, battery diaphragms, electronic components, special auxiliary materials, etc.

How much energy storage will Europe have by 2023?

According to SolorPower Europe's forecast, the new installed capacity of the European domestic energy storage market will exceed 1GWh by 2023. The electrochemical energy storage industry chain, like other industries, consists of upstream, middle reaches, and downstream.
