

# South Africa s mobile energy storage containers have ultra-large capacity

## Overview

---

Who is delivering battery energy storage systems in South Africa?

Envision Energy, a leading global provider of energy storage solutions, has secured a major contract with EDF Group to deliver three battery energy storage systems (BESS) in South Africa. These systems, with a total capacity of 257 MW and 1028 MWh, represent the largest battery energy storage order in the country.

How much energy storage capacity does South Africa have?

South Africa had 1,604.6kW of capacity in 2022 and this is expected to rise to 3,519.9kW by 2030. Listed below are the five largest energy storage projects by capacity in South Africa, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

Is Eskom launching a battery energy storage system in South Africa?

Friday, 10 November 2023: Eskom unveiled the first of its kind largest Battery Energy Storage System (BESS) project not only in South Africa but in the African continent. Eskom officially opened the Hex BESS site at Worcester in the Western Cape yesterday.

Why is battery storage important in South Africa?

In South Africa, battery storage is increasingly seen as a key pillar to help provide grid stability and integrate variable renewables given its ageing coal-fired power fleet and grid.
