

South African e-commerce 5g base station

Overview

Does South Africa have a 5G market?

The South African 5G market has entered “a dynamic growth phase,” with major telecommunications operators, including MTN and Vodacom, spearheading the rapid expansion of 5G coverage across the country. By the end of 2024, over 50% of the population had access to 5G networks, according to a report by ICT market research firm Africa Analysis.

Which companies are deploying 5G in South Africa?

Major telecom operators like Vodacom, MTN, and Rain have been rolling out 5G services across various cities 1 .)As to SA 5G networks, the deployment is still in the early stages. Most of the current 5G networks in South Africa are non-standalone (NSA), which means they rely on existing 4G infrastructure for certain functions.

Is South Africa ready for 5G expansion?

This milestone signals a transformative period for the sector, with further network expansions projected over the next five years. Africa Analysis' 2025 SA 5G Report reveals that South Africa reached 10.8 million 5G subscribers by December 2024, a figure combining mobile users and fixed wireless access (FWA) customers.

How is 5G deployment progressing in South Africa?

In South Africa, 5G deployment has been progressing steadily. Major telecom operators like Vodacom, MTN, and Rain have been rolling out 5G services across various cities 1 .)As to SA 5G networks, the deployment is still in the early stages.
