

South Sudan Electricity Storage Prices

Overview

What is the price of electricity in Sudan?

Sudan, September 2022: The price of electricity is 0.009 U.S. Dollar per kWh for households and 0.045 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How much money does South Sudan need to invest in electricity?

The target calls for an extremely ambitious investment program of US\$0.7 billion for the electricity sector as a key driver of growth in South Sudan. None or very little of the ambitious target has been achieved due to lack of funds and lack of capacity to implement the programs. 32.

Where does Sudan's electricity come from?

About half of Sudan's electricity comes from burning fuel and half from hydropower. This year the government reduced subsidies for higher energy consumption levels as part of economic reforms monitored by the International Monetary Fund.

What are the shortcomings of the electricity sector in Sudan?

A key shortcoming of the sector is that the only legal document for the electricity sector is the Southern Sudan National Electric Sector Policy (NESP), 2007. There is another draft document, namely, Electricity Bill 2013, which has not yet been enacted.
