

# Southern European supercapacitor module manufacturer

## Overview

---

What is a skelmod supercapacitor module?

The SkelMod supercapacitor module (Bank of Capacitors) delivers substantial power in a compact package, thanks to our SkelCap supercapacitors with exceptionally low internal resistance. For instance, the SkelMod 17V 500F module offers high power density with minimal cooling requirements due to its low internal resistance.

Which supercapacitor module is based on skeleton?

Based on Skeleton's industry-leading supercapacitors, offering unparalleled power. The SkelMod 51V 177F supercapacitor module is the only rail-certified supercapacitor module on the market. Based on Skeleton's supercapacitors: Reliable engine starting for diesel engines in any weather conditions.

What is skeleton supercapacitor?

Skeleton's SkelMod and SkelStart supercapacitor modules offer a lot of power in compact, industry-standard form factors. Highest performance and quality for automotive, transportation, grid, and industrial applications. SuperBattery is an innovative technology combining supercapacitor and battery characteristics.

Where are Supercapacitors made?

Our production facilities in Germany are strategically located to serve our global customer base. The ISO 9001 and 14001 certified Dresden Superfactory, the largest supercapacitor factory in Europe, exemplifies our commitment to quality and sustainability.
