Information unavailable.

Why do you need uninterruptible power supplies?

Our uninterruptible power supplies protect critical industries today and our electrical energy conversion systems are shaping a more secure and sustainable future. Our uninterruptible power solutions protect against mains power issues to ensure safe operation, protect people and reduce the risk of downtime and system failures.

What is the power supply industry in Spain?

With a focus on reliability and energy efficiency, their products range from 350 VA to 6,400 KVA, making them suitable for various sectors such as healthcare, IT, and large infrastructures. When exploring the Power Supply industry in Spain, several key considerations come into play.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.
