

# **Sukhumi energy storage container distribution box**

## Overview

---

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What are the components of a power storage box?

One side of the box is equipped with PLC cabinets, battery racks, transformer cabinets, power cabinets, and energy storage power conversion system fixed racks. In addition, the container is equipped with vents. The components they are divided into two rows and arranged on both sides of the container, leaving a passage in the middle.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is CIMC TLC|RYC energy storage container?

CIMC TLC|RYC Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. It has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.
