What is EBRD doing with Tashkent solar PV & energy storage?

Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: “We are proud to partner with ACWA Power and co-financiers on the pioneering Tashkent Solar PV and energy storage project in Uzbekistan, the largest of its kind in Central Asia. The project is core to Uzbekistan's ambition to install 25GW of renewables by 2030.

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

Tashkent, Uzbekistan, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

Who will sell electricity to in Uzbekistan?

The project company is committed to selling electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

Will Uzbekistan generate 40% of its electricity from renewables?

By 2030, Uzbekistan is aiming to generate 40% of its electricity from renewables. The BESS will help to mitigate the effects of intermittency that are inherent in renewable energy sources, storing excess electricity generated during times of high production and make it available during periods of low production.
