

Tender for Iran site energy storage BESS project

Overview

What is NTPC's Bess tender?

NTPC's BESS tender allocates 300 MW/1,200 MWh and 1,400 MW/2,800 MWh capacities across 11 locations with two operational cycles per day. It set September 19, 2025, as the last date for bid submission. NTPC Limited has invited bids for a 4,000 MWh battery energy storage system (BESS) at its thermal power stations.

Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

Who is a Bess project manager?

O&M 6. Decommissioning and EOL Utility project managers and teams developing, planning, or considering battery energy storage system (BESS) projects. Subject matter experts or technical project staff seeking leading practices and practical guidance based on field experience with BESS projects.

Is NTPC preparing a bid for a Bess project?

Its renewable energy arm, NTPC REL, recently called bids for a 2,500 MW/10,000 MWh BESS project at thermal power stations. Additionally, earlier, NTPC had also issued a tender to develop and test a pilot BESS to replace diesel generators at the Dadri Thermal Plant.
