

The world s first solar water pump

Overview

When was solar energy first used to pump water?

The history of efforts made to convert solar energy into mechanical energy/electrical energy to pump water dates back to around 15th–19th century. Pytlinski , reviewed the work of some researchers to use of solar energy to pump water. The first case of solar PV water pump reported in 1964 in the Soviet Union.

When was the first solar power station built?

We believe it to be in 1913 on the outskirts of Cairo, when an inventor from Philadelphia named Frank Shuman built the world's first solar thermal power station, using the abundant Egyptian sunshine to pump 6,000 gallons of water a minute from the Nile to irrigate a nearby cotton field. 6,000GPM?

!?

That's a lot of water!.

Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

Can solar power power water pumps?

Nowadays, the utilization of PV conversion of solar energy to power the water pumps is an emerging technology with great challenges. The PV technology can be applied on a larger scale and it also presents an environmentally favorable alternative to fossil fuel (diesel and electricity) powered conventional water pumps , .

The world s first solar water pump

CHAPTER 4 SOLAR POWERED WATER PUMP

Aug 25, 2017 · 4.2 HISTORY OF SOLAR PUMPS The use of solar energy for pumping of water is not a new idea. Several efforts are made in the past to convert solar heat into mechanical ...

Maharashtra installs 45,911 solar water pumps within one ...

3 days ago · Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL), the state-owned discom, has announced that the state has successfully installed an unprecedented 45,911 ...

Solar Water Pump, Deep Well Pump, ...

ZHEJIANG QIANTAO PUMPS CO., LTD.'s main products including water pump, motor, air compressor. Qiantao is committed to manufacturing high ...

Solar-powered Groundwater Pumping

Dec 27, 2018 · Although the first solar pumps were introduced already in the late 1970's, it took about 40 years before they became increasingly popular and used for groundwater pumping. ...

Solar power plant's pioneer

Apr 8, 2025 · The world's first solar power plant in history (link in Dutch) was constructed by Frank Shuman. His aim was to liberate us from fossil fuels. He was far ahead of his time - but he got ...

Announcing the world's first solar irrigation ...

Feb 15, 2018 · Now with the world's first 10-year warranty on a solar powered water pump! The new features of the SF2 answer all the requests from ...

History of Solar Pumping - RPS Solar Pumps , America's #1 Solar Well Pumps

When was the first solar water pump used? We believe it to be in 1913 on the outskirts of Cairo, when an inventor from Philadelphia named Frank Shuman built the world's first solar thermal ...

solar pump inverter manufacturer, shenzhen solartech

Founded in 2001, Solartech is China's leading solar pump manufacturer. Solartech is also the world's first manufacturer of the whole series of solar pumping inverters, solar pumps, and ...

The Evolution and Impact of Solar Water Pumps

The evolution of solar water pumps can be traced back to the development of photovoltaic (PV) technology, which forms the foundation of solar energy systems. As PV technology advanced, ...

Solar Water Pumps: Things To Know and Tips ...

Jan 2, 2020 · Solar water pumps are a relatively new concept in mechanics. A solar water pump system is commonly seen in residential and ...

Rite Water Emerges as Fast-Growing Solar Pump Player, ...

2 days ago · In a historic feat that has put Maharashtra on the global clean-energy map, Mahavitaran (MSEDCL) has officially entered the Guinness World Records by installing an ...

Maharashtra Announces Guinness Record Attempt; Shakti ...

5 days ago · Maharashtra Announces Guinness Record Attempt; Shakti Pumps Contributes 8,846 Solar Installations Maharashtra has completed its Guinness World Records attempt under the ...

SOLAR THERMAL POWER AND ENERGY STORAGE ...

Apr 18, 2015 · The steam engine was shipped from the USA. The steam collected by the reflectors was used to power a water pump for the first time on July 11, 1913. They initially ...

Solar photovoltaic water pumping system

Jun 1, 2016 · The history of efforts made to convert solar energy into mechanical energy/electrical energy to pump water dates back to around 15th-19th century. Pytlinski [7], reviewed the work ...

The World's Most Innovative Water Pump - ...

Mar 4, 2014 · Pumpmakers is striving to alleviate the global water crisis with the NSP Solar Pump, the world's first maintenance-free and corrosion ...

History of Solar Pumping - RPS Solar Pumps

When was the first solar water pump used? We believe it to be in 1913 on the outskirts of Cairo, when an inventor from Philadelphia named Frank ...

Best Solar Powered Water Pump Systems ...

Jun 20, 2025 · Want to pump water off-grid without paying electricity bills? Discover the top solar powered water pump systems, installation tips, and ...

The French Connection: The rise of the PV water pump

Jan 1, 2001 · After learning much from this pioneering experience, J.A. Roger's team established the world's first practical photovoltaic pump on the island of Corsica. The revolutionary pump ...

Who Invented Solar Power Irrigation System?

Sep 13, 2025 · Solar-powered pumps, which run on electricity generated by photovoltaic (PV) panels or radiated thermal energy from collected sunlight, have gained popularity in the late ...

Solar power plant's pioneer

Apr 8, 2025 · The world's first solar power plant in history (link in Dutch) was constructed by Frank Shuman. His aim was to liberate us from fossil ...
