

Tunisia exports solar panels

Overview

Should Tunisia export solar energy?

While only 3 percent of Tunisia's electricity is generated from renewable energy, and the country is struggling to meet its climate objectives because of the prevailing financial crisis, many foreign private investors are actively targeting Tunisian solar resources for export.

Will the Tunisian Sun be exported to Europe?

Exporting the Tunisian sun to Europe has been the ambitious vision of the Tunisian-British company TuNur for the past ten years, as it plans to develop a mega solar power plant in southern Tunisia. This project will, however, inevitably have an impact on local communities and resources.

Why did Tunisia import Chinese solar panels in 2024?

This surge in activity is reflected in trade, as Tunisia imported 655 MW of Chinese PV panels between July 2024 and June 2025, placing it among Africa's top six solar importers. This combined push signals a significant turning point for Tunisia's energy transition.

Is Tunisia accelerating the deployment of a large-scale photovoltaic sector?

By bna Cairo bureau Tunisia is finally accelerating the deployment of its large-scale photovoltaic (PV) sector after years of slow progress, with construction now underway across multiple major projects, PV-Magazine reported.
