

Türkiye Solar PV Energy Storage Wholesale

Overview

How many solar companies are there in Türkiye?

There are more than 250 Engineering, Procurement, and Construction (EPC) companies actively working in Türkiye, excluding the small companies providing services locally. As a consequence of these flourishing developments, the Turkish solar energy sector currently employs over 50,000 people.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

Who is power solar?

Power Solar specializes in renewable energy solutions, with a primary focus on solar energy. They offer comprehensive services, including project design, installation, and operational support, ensuring high-quality and environmentally conscious products for clients investing in solar energy.

How many solar power plants are there in Türkiye?

Solar power installed capacity increased by 1,610 MW, compared to the end of 2021. There are 11,427 power generation plants in Türkiye and the number of unlicensed and licensed small power producers (SPPs) reached 9,353 (TEİAŞ, 2022). With solar PV installations exceeding 9 GW in less than 10 years, the PV panel production market has also expanded.
