

UK home inverter prices

Overview

How much does a solar inverter cost?

Our guide to solar inverter costs covers everything you need to know before purchasing your solar panel system. Below we'll cover: The cost of solar inverters varies from £500-£2,000 for the average property. The price depends on the type (string, micro or hybrid) you choose, the quality of the brand, as well as the size you need.

What are the best solar inverters for UK homes in 2025?

Compare the best solar inverters for UK homes in 2025. Hybrid vs string, Growatt, Sunsynk, Fox ESS, and more. Expert support from Evergy included.

What is a solar inverter?

A Solar inverter simply converts the direct current (DC) electricity produced by your solar panels into alternating current (AC) electricity that can be used in your home and exported back to the grid. There are three main types of inverters: String Inverters, Grid-Tied Inverters and Micro Inverters.

How many types of solar inverters are there?

There are three different kinds of solar inverter that you can use with your solar panels. As is the case with any sensible industry, you get what you pay for. A string inverter (or centralized inverter) is the cheapest of the three options. It functions as a lone operator, processing the DC electricity of all your solar panels.
