

# **UPS battery cabinet is placed in the same room as the cabinet**

## Overview

---

Where should a battery cabinet be installed?

Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module. Cabinet.

How do I set up an UPS battery room?

Open-rack battery rooms must be adjacent to the UPS room. Battery cabinets must be adjacent to the UPS equipment. Cable lengths from multiple cabinets should be kept as nearly identical as possible to prevent voltage drop variations. One cabinet should be able to hold at least one complete string of cells.

How to connect UPS CAB & Battery Cabinet?

Wiring between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabinet.

How to install UPS?

and unpacking Use the following basic sequence of steps to install the UPS: Create an installation plan for the battery cabinet (Chapter 3). Prepare your site for the battery cabinet (Chapter 3). Inspect and unpack the battery cabinet (Chapter 3). Unload and install the battery cabinet, and wire
