

Uganda Folding Container Fixed Type for Cement Plants

Overview

A bolted silo is an engineered facility designed to contain a variety of granular bulk products, such as grains and powders. It typically consists of a cylindrical shell with roofs, walls, and layers of metal panel.

How much does a cement plant cost in Uganda?

New Vision News has reported that the plant will cost US\$1.2bn and produce cement from locally sourced limestone. The Uganda government said that the plant will generate jobs and help to lower the local price of cement. [Read more.](#)

Is Uganda smuggling 'cheap illegal cement'?

Uganda: The Uganda Revenue Authority (URA) has augmented its operations on the country's eastern border with Kenya to prevent the smuggling of cement. The Daily Monitor newspaper previously reported "cheap illegal cement" was being imported by both large and small-scale traders via multiple uncontrolled border points.

How much does Hima Cement cost in Uganda?

Uganda: Holcim subsidiaries Bamburi Cement and Cementia Holding have negotiated a price of US\$120m for Hima Cement with buyer Sarrai Group. Business Daily News has reported that the price is 14% higher than the company's previous valuation.

Can Sunbird Mine limestone in Uganda?

Uganda: The government has granted a 21-year mining licence to Sunbird Resources to support a cement plant project near the border with Kenya. The licence will allow the local company, which is working with China-based West China Cement, to mine limestone, according to Reuters. The partners intend to build a 1Mt/yr integrated cement plant.
