

Ukrainian industrial-grade UPS uninterruptible power supply

Overview

What is a static uninterruptible power supply (UPS)?

Our static uninterruptible power supply (UPS) systems comply with the VFI-SS-11 classification according to IEC 62040-3. With their robust industrial design, they support a secure consumer supply in continuous operation.

What is an industrial UPS system?

The industrial UPS systems produced by SCU, a professional UPS supplier, are specially designed for industrial application with high performance, high efficiency and high protection level. The industrial UPS system provides uninterrupted high-quality industrial uninterruptible power supply for modern manufacturing.

Who won the bid for the construction of ups power supply project?

Open bidding for the construction of UPS power supply project in the new factory area of CanSemi Company, Sicon won the bid with its professional and dedicated technology and service. SCU provides industrial uninterruptible power supply for modern manufacturing.

Why do you need a UPS system?

In times of energy transition, our UPS systems protect against system failures caused by interruptions and disturbances in the grid feed. Customers from the telecom, railroad, power generation / distribution, chemical industry, among others, have been relying on the high quality and reliability of our UPS systems for decades.
