

# Ukrainian three-phase off-grid solar inverter

## Overview

---

What is a hybrid solar inverter?

Combining functions of off grid and on grid. This hybrid solar inverter can power all kinds of appliances in home or office, and can also be used in power stations. This is a flexible and intelligent energy storage solar inverter with a wide range of MPPT Voltage. Combining functions of off grid and on grid.

What is a ph3000 three-phase inverter?

This model PH3000 Three-phase is a flexible and intelligent energy storage inverter which utilizes solar power, utility power, and battery power source to supply continuous power.

What is a ph1100 EU series solar inverter?

The PH1100 EU Series (20–50kW) is a robust three-phase hybrid inverter designed for large residential, commercial, and industrial solar-plus-storage applications. Compatible with high-voltage lithium batteries (150–800V), it empowers users to reduce reliance on the grid while ensuring maximum solar utilization.

What is a grid-interactive power system?

Capable of being grid-interactive, it allows users to store surplus power and sell it back to the grid when demand peaks and the price of electricity is at its highest. It runs reliably under even the most extreme conditions with metal aluminium housing with IP66 protection.
