

Usb c power station for sale in Iran

Overview

What type of plug does Iran use?

Iran uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries.

Can I use a power socket in Iran?

All power sockets in Iran provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Iran if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a voltage converter in Iran?

If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Iran. The standard frequency in Iran is 50Hz. If this frequency differs from the frequency used in your home country, please use caution when plugging in your devices.
