

# VAT on solar container lithium battery energy storage equipment

## Overview

---

Can I get VAT relief for energy storage devices?

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.

When will the VAT charge be removed for battery energy storage systems?

As of 1 February 2024, the UK government has removed the VAT charge for domestic battery energy storage systems (BESS) under any circumstance. The policy change, initially announced in December 2023, followed a lengthy campaign by both Solar Energy UK and parliamentarians to include retrofitted BESS in the 20% tax exemption.

Do I have to pay 0% VAT on solar & energy storage?

Solar Energy UK recommends to support the uptake of residential solar and energy storage. All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.

What is the VAT rate on solar?

VAT on a range of domestic energy efficiency and renewable energy installations, including solar, is now 0% in Great Britain. This is a reduction from the previous rate of between 5% and 20%. Eligible installations are those included on the Government's list of Energy Saving Measures (ESMs).
