

# Vanuatu Rackmount Battery Company

## Overview

---

Why do you need a rackmount battery?

When it comes to server racks and solar applications, having a dependable and efficient power storage solution is crucial. Our rackmount batteries are designed to meet the demanding needs of server systems, ensuring uninterrupted power supply and optimal performance.

What is a rack-mounted lithium battery module?

The rack-mounted lithium battery module consists of cells in series and in parallel to achieve the power capacity. The module has a built-in BMU system, which can collect the voltage and temperature of each cell, and manage the cell balance, so as to ensure the normal operation of the whole module safely and efficiently.

What are rack mount batteries used for?

These rack mount batteries cater to diverse industries like telecommunications, solar power, and data centers. They are popularly used as energy backups, primary energy sources, or UPS to ensure uninterrupted power supply.

Which battery is best for a server rack?

Discover high-quality rackmount batteries for server racks. Our LiFePO<sub>4</sub> solar batteries are designed for server applications, offering reliable power storage. Explore our 48V rack mount battery options, including server batteries, lithium iron phosphate batteries, and 48V LiFePO<sub>4</sub> server rack batteries.
