

Victoria Home Solar Power Systems

Overview

What is solar Victoria's Solar Homes program?

Solar Victoria's Solar Homes Program offers rebates and interest-free loans for installing solar panels, batteries and energy-efficient hot water systems to help Victorians save on energy costs. Eligible owner-occupier households can apply for all three incentives.

How much do solar panels cost in Victoria?

The cost of installing solar panels in VIC varies depending on system size, installation complexity, and brand choice. As of October 2024, homeowners in Victoria can expect to pay around \$4,150 for a 4kW system, \$4,630 for a 5kW system, \$5,200 for a 6kW system, \$6,070 for a 7kW system, and \$7,850 for a 10kW system.

Why are there so many solar installers in Victoria?

With the great benefit of solar panel systems with the state government rebates, more and more of the homes in Victoria are opting for solar power. This has resulted in a steep increase in the demand of solar installers in Victoria. The concentration of solar systems is mainly seen along the coastal line of Victoria starting around Melbourne.

What is the solar rebate Victoria program?

Through the Solar Rebate Victoria program, eligible households and small businesses will receive financial incentives to install solar panel systems. Furthermore, here are the key benefits of the rebate: Only eligible households will be able to apply for the Victorian government solar rebate program. The eligibility criteria are:
