

Victoria high power energy storage equipment brand

Overview

Why did energy dome choose Victoria?

Energy Dome chose Victoria for its collaborative energy industry, ambitious net-zero targets, strong commitment to renewable energy and attractive investment initiatives. As the state transitions from coal-fired power and faces growing industrial energy demands, it presents an ideal environment for long-duration energy storage solutions.

What is the Wooreen energy storage system?

The Wooreen energy storage system will utilise Wärtsilä's Quantum High Energy technology and GEMS Digital Energy Platform, helping to secure Victoria's energy supply and enabling more renewable energy to enter the electricity network while providing crucial grid services.

What is EnergyAustralia's energy storage project?

The energy storage project will provide EnergyAustralia with a natural hedge against such market fluctuations and help stabilise energy prices and ensure a more resilient energy supply. "At EnergyAustralia, our purpose is to lead and accelerate the clean energy transformation for all," said EnergyAustralia Managing Director, Mark Collette.

Why is energy dome establishing an APAC team in Victoria?

Energy Dome has identified critical advantages in establishing our APAC team in Victoria to lead the deployment of the CO2 Battery, and the Victorian Government's support will enable us to accelerate our expansion in the state.
