

# Wall-mounted solar water pump

## Overview

---

What is a solar water pump?

Common applications are water for livestock, crop irrigation, drinking, and cooking water supply. During hot months and in hot areas the requirement for water is high. Private households and farms need a stable and consistent water supply. Solar water pumps are electrically driven pumping systems, powered by photovoltaic panels.

What is a solar wall mount fountain?

Solar wall mount fountains, for your outdoor patio, courtyard and entrance, have stunning designs like the Venetian Wall Mounted Solar Fountain. You can embrace the soothing and relaxing sound of waterfalls while you enjoy your outdoor living space. They are manufactured by Sunnydaze Decor, using polystone, and have a one year warranty.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

Does a poly solar panel kit have a submersible well pump?

The Poly Solar Panel Kit has a 12 V submersible well pump. It's ideal for bigger applications, such as farms, irrigation or camping sites. The pump benefits from the highest engineering design, since it can be submersed up until 30 meters underwater without any problem.
